NUMB. 5103

TUESDAY, AUGUST 27, 1745.

Alexandria, August 5.

WE had this Morning early Advice, that the Trenches were open'd last Night before Tortona; and we had scarce read the Letter, before we heard what was contained in them, confirmed by the Thunder of the Cannon of the Place. The Attack is on the same Side as in the last Siege. The French

no farther concern'd, than in covering it; it is the Troops of the Three Southern Powers, which are employ'd in the Siege, and they have with them a Train of 100 Pieces of heavy Cannon, and a proportionable Number of Mortars. Since the Enemy have begun to in Earnest, the Count de Laureac has shewn himself on the Side of Chiavale, with a Corps of Troops much superior to those under the Orders of M. Sinsini, who commands on that Side for the King of Sardinia. There have lately pass'd thro' this Country several Companies, dispatched by the State of Venice, to its Ministers at Paris and Madrid; and we flatter ourselves that Republick will shortly declare in our Favour.

Prague, August 18. A very considerable Body of Militia has lately enter'd this City, in order to replace the Troops that march from hence for the Army. There arrived here also, on the Frontier of the Country of Silesia, a great Body of Pandours, whom Prince Charles has thought fit to recall out of the Upper Silesia, in order to reinforce our Irregulars, which began of late to grow thin. It has been for some Time reported, that his Prussian Majesty would shortly retire out of this Kingdom; but we now begin to doubt it, and are preparing for a vigorous Winter Campaign, which we make no Question will be our Lot.

Vienna, August 18. The Queen has not been in Town several Days; having been so much indispos'd with Cold, that she was obliged to keep her Chamber. Her slight Illness, however, did not hinder her from holding frequent Councils on the present State of Affairs. In Consequence of which, Couriers set out almost every Day, either with Dispatches for the Army, or for our Ministers at Foreign Courts. On the 15th there arrived an Express from Dresden, which is said to have brought very favourable Resolutions in reference to the Election; to which we give the more Credit, because soon after the Arrival of this Express, a Detachment of Archers which are to attend his Royal Highness when he makes his Publick Entry into Silesia, had Orders to march. Don Caravalla, here before Envoy Extraordinary from the King of Portugal to the British Court, has hired a House here, and is to remain at this Court, with the Title of Minister Plenipotentiary from his Majesty of Portugal. We expect, very speedily, a new Minister from the King of Poland, in order to replace Count Buhau, who died not long ago at Venice. The Duke de Saxe Weissenfels is returned suddenly and unexpectedly to the Army, and is taken upon him again the Command of the Saxon Auxiliaries. It has been observed, that tho' the Court has received several Couriers from Bohemia, yet very little News has been published from thence of late; which occasions much Speculation.

Frankfort, August 24. The Count de Wurmbbrand, erst Ambassador from the Electorate of Bohemia, arrived last Sunday in this City. Yesterday the Ambassadors from Electors held their Second solemn Conference at Roemer; at which the Count de Wurmbbrand attended, together with all the Ministers who were present the First. It was said very positively in the Morning, that the Saxon Minister would certainly be there; but after all, he was not, for want, as he pretended, of a Courier from his Court, with an Answer to his Dispatches; but we apprehend the true Reason to be, that the Count de Loos has the King's Secret, and that nothing can be done till he arrives. This Second Conference lasted from Ten o'Clock to half an Hour past Three. There will be three or four more this Week, the Excellencies having judged it necessary to meet every Day. The Hessian Troops that are again enter'd to the Pay of Great Britain, began their March this Day, in order to pass thro' the Countries of Munster and Guelders, to join the Army of the Allies under the Command of Royal Highness the Duke of Cumberland.

Hanover, August 27. Prince Frederick of Hesse Cassel took Leave of the King the Day before Yesterday, in the Evening, in order to return to Cassel. We are assured that his Serene Highness will command the 6000 Hessians that have been lately taken into the Pay of Great Britain. We talk likewise of a Body of 12,000 Bavarians, that are shortly to enter into the Pay of the Maritime Powers. M. Hop, Envoy Extraordinary from their High Mightinesses the States General, to the King, our Sovereign, set out this Day, with his Son, for Holland; from whence he will immediately proceed to London. The great Subject of Discourse here, is the Invasion of Saxony by the King of Prussia; which, after being look'd upon as a Chimera for some Months, is now considered as a Thing that will certainly take Place; but with what View, it is not easy to determine.

Brussels, August 30. His Royal Highness the Duke of Cumberland, accompanied by Field-Marshal Count Konigsfegg and Prince Waldeck, made a Tour hither Yesterday, and gave several Orders for the better securing this City, in case the Enemy should attempt a Bombardment; of which we are not, at present however, in any great fear, because there is good Reason to believe their Views are turn'd another Way. The Garrison of Ostend marched out with all the Honours of War, and with the stipulated Number of Cannon and Mortars. We were in hopes that they would either have rejoin'd the Army, or have been sent to Antwerp; but it is now said that they will be escorted to Mons, by the Way of Oudenard and Tournay; but whether this be a Matter of Fact, or only a Story throw'd out by the Emiffaries of the French, is at present uncertain. They write from Antwerp, that a Dutch Man of War, and two English Arm'd Sloops, are arriv'd at the Mouth of the Scheldt, in order to protect and secure the Navigation of that River; which gives us great Satisfaction. Lord Crawford, and the rest of the Generals that intended to have thrown themselves into Ostend, but were prevented by the Capitulation, are return'd to the Army. The Princess of Waldeck is lately arrived here from Nimwegen; but hitherto she remains incognito, under the Name of the Countess of Schuylberg. We expect the Hessian Troops in a Fortnight at farthest; and we have certain Intelligence from the Hague, that the Dutch have at last resolv'd to grant the Subsidies demanded by the Elector of Bavaria; and have nam'd an Officer of Distinction to conduct the Troops of that Prince, which shall be taken into their Pay, into Brabant; so that before the Close of next Month the Army of the Allies under the Command of his Royal Highness will be above 60,000 strong.

Dublin, August 20. Last Week the Assizes ended at Clonmell, where Four Persons were capitally convicted for Cow and Horse-stealing, and one Joan Ryan was found guilty of murdering a Beggar-Woman, and order'd to be burnt. Richard Haffett, a Trooper, and one Hayes, were also try'd for Murder, and found guilty of Man-slaughter at large.

A Proclamation has been issued by their Excellencies the Lords Justices and Council, offering a Reward of 30,000 l. to any Person who shall seize and secure the eldest Son of the Pretender, in case he shall land, or attempt to land, in this Kingdom.

We hear from several Parts of the Country, that the great Rains which have fallen of late has done prodigious Damage, the low Lands being all under Water; and that 'tis feared a great Part of the Corn and Hay will be lost.

We hear from Kinsale, that there are fresh Discoveries made every Day of Riches on board the two Prizes brought in by Captain Talbot; and some Chests of Wrought Plate were lately found.

The Augusta, Faulkland, and Saphire Men of War, arrived in that Port last Thursday Evening.

The Prince Frederick and Duke Privateers are to sail for Bristol, with the Treasure taken by them, under Convey of the above Men of War.

The Report of the Faulkland Min of War having taken the Ship which escap'd from Capt. Talbot, proves a Mistake.

Last Week died the Lady Dorothy Bayly, Relict of the late Sir Edward Bayly; by whose Death a considerable Fortune devolves to her Son, Sir Nicholas Bayly, Bart.

We hear from Dromana, the Seat of the Right Hon. the Earl of Grandison, that his only Child, the Hon. Lady Betty Mason, Wife of Aland Mason, of the County of Waterford, Esq; was deliver'd of a Son, to the great Joy of that Family. Both the Lady and Child are very well.

The Right Hon. the Lord Athurly, First Baron of Ireland, is married to the Right Hon. the Viscountess Dowager Mayo; an agreeable Lady, possess'd of every good Quality.

From the CALEDONIAN MERCURY.

Extract of a Letter from Inverary, dated August 19.

Just now we had two Expresses from Sir Duncan Campbell of Lochnell, telling, the Pretender, with 300 Gentlemen, landed at Lochmodart last Week. There is another Ship they expect every Moment. They have got some to join them since they landed.

Edinburgh, August 19. Last Friday his Grace the Duke of Argyll arrived here from his Seat at Roseneath, in the Shire of Dumbarton.

Col. Lisle's Regiment of Foot, except two Companies, and Colonel Murray's Regiment of Foot, are march'd for the Camp near Stirling.

Last Week Capt. Campbell of Inveraw arrived at Inverlochry, at the Head of his Highland Company, from Perthshire.

All the Chelsea Out-Pensioners who live in this Neighbourhood have been reviewed by the Hon. Lieutenant-General Guist, and order'd to march to Stirling, there to receive further Orders.

Yesterday above 1000 Stands of Arms were carried out of the Castle of Edinburgh; and we hear are to be given to the Militia in the West Country.

His Excellency Sir John Cope, Commander in Chief of the Forces in Scotland, the Earl of Loudon, &c. are gone to Stirling, to take upon them their respective Commands.

Yesterday one of his Majesty's Messengers arrived here from London, with Dispatches to his Grace the Duke of Argyll.

We can advise our Readers, by Authority, that there is good Ground to hope, that our Apprehensions of Troubles in the North-West of Scotland, will ere long blow over.

The Furnace Sloop of War, and another armed Vessel, sail'd last Thursday from the River Clyde for the North Isles, in order to look-out for Privateers.

COUNTRY NEWS.

Bristol, August 24. Last Monday one Keene, a sprightly Lad, Son to a Farrier near Laurence Hill, was crush'd to Death by a Cart going over his Body, as it was driving thro' the Crowd that were assembled to hear the Harangue of the Mountebank without Lawford's Gate.

Considerations on the Conduct of the

French. Containing a candid Examination, whether there was any just Reasons to expect they should concur with us in declaring War against France, or whether there be any sufficient Causes to warrant the present Clamour against them. The Royal BEAUTIFYING FLUID.

SO exceedingly valued by Ladies of Quality and all who have used it, for its transcendent Excellency in Beautifying the Face, Neck, and Hands to the most exquisite Perfection possible, is to be had only at Mr. Radford's Toyshop at the Rose and Crown against St. Clement's Church-yard in the Strand.

It gives an inexpressible fine Air to the Features of the Face on the Spot, and a surprising Handfulness to the Neck and Hands, which it immediately makes exceedingly smooth, fine, and delicately white.

Nothing in the World can sooner or more certainly take away all disagreeable Redness, Spots, Pimples, Heats, Roughness, Morpew, Worms in the Face, Marks of the Small Pox, Sun-burn, or any other Discolouring, nor remove all Wrinkles perfectly; for it quickly makes the Skin become so incomparably fine, clear, plump, soft, and beautifully fair, as to cause Admiration in the Beholders.

It really gives a most engaging resplendent Brightness to the whole Countenance, and causes sparkling Life, Spirit, a juvenile Bloom to reign in every Feature, and yet is nothing of Paint, but far exceeds it, by its bringing the Skin, whether of the Face, Neck, or Hands, and tho' brown, red or rough, to a natural, youthful Fairness, Smoothness, and most charming Delicacy, which Paint only faintly imitates; neither is this ROYAL BEAUTIFIER prepared from the least Particle of Mercury, or any Thing Metallic, but is perfectly harmless and may be given inwardly even to Children. It has also a pleasant Scent, will not soil the finest Lawn, and is very agreeable to use.

But these its admirable Properties, by which it vastly exceeds any Thing whatever for the like Purpose, have occasioned many to imitate it, under various other Names, beware therefore of such Impositions, the true ROYAL BEAUTIFYING FLUID, that has given such universal Satisfaction to so many Ladies of Distinction, being only to be had at Mr. Radford's Toyshop above-mentioned at 3 s. 6d. a Bottle with Directions, and no where else in England.

ANTI-SYPHYLICON.

THE only short and most infallible

Cure in the Universe for the VENEREAL DISEASE from the slightest Infection to the most extreme and deplorable Degree of it; even when the Blood and Juices are thoroughly contaminated with its malignant Virus, and the very Bones are affected with it.

Fresh Infections, call'd CLAPS, with all their attendant Symptoms, tho' ever so severe, are entirely carried off by it in a few Days, and so as effectually to prevent the Blood and Juices from being tainted with any remaining Relicks on one Hand, or a venereal Gleet or Weakness to happen on the other.

And the most inveterate Degree of the French Illness attended with Nocturnal Pains, universal Breakings out, and all the other most exasperated Symptoms, are soon overcome by it, and effectually and much more safely cured than by Salivation, Inunction, or any other Method whatever, and in so easy and pleasant a Manner, without impairing Strength, or occasioning any Inconvenience, as loudly to bespeak it the only apposite Remedy or true Venereal Antidote in the World; and this some Thousands have to their great Joy experienced.

It is pleasant to take, occasions no Sickness or Disorder, nor requires Confinement; but may be taken, and the Cure be accomplish'd, without the Knowledge of the nearest Friend.

Those who suspect they have received an Injury, may by only a Dose or two of it, be perfectly freed from all Apprehensions; for it suffers no lurking Venom to lie hid in the Body, but wholly extirpates it Root and Branch, in a gentle, easy, and most effectual Manner.

All such likewise as doubt they have some remaining Relicks of former Injuries, may by a few Doses of it entirely free themselves from all Suspicion of that Kind; for it admits of no Foulness, Corruption, or Putrefaction whatever, to remain in the Fluids, or to adhere to the Solids; and on that Account, in all scorbatick, scrophulous, and even leprosy Eruptions or Foulnesses of the Skin, Glandulous Swelling and Impurities of the Juices, it does more by one Dose than any other Medicine yet known can by ten.

The Price of this most Noble ANTI-SYPHYLICON is but Six Shillings a Pot, which, considering its extraordinary Efficacy, one Pot only being suffice in most Cases to accomplish the Cure, is not a tenth Part of its Value; and is appointed by the Author to be had only at Mr. RADFORD's Toyshop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up with a Book of Instructions, by the Perusal of which, all Persons who were ever affected with any Degree of the Venereal Disease, may perfectly understand their own Condition, and certainly know when, and when not, the Venereal Poison is intirely rooted out of their Bodies.

Note, Ask only for a Six Shilling Pot for the Scurvy.

The Grand SPECIFICK SYRUP for CHILDREN.

THIS Syrup, by many Years Expe-

rience, has been remarkably serviceable in all Disorders incident to Children, and is the best Preservative known against Convulsions and Epilepsies, when cutting the Teeth. It expels Wind, prevents four Belchings, and frequent Pukings, helps Digestion, and effectually appeases Gripes. Its Virtues are known to be of uncommon Service in the Chin or Convulsive Coughs, likewise in all Consumptive Cases, either of Children or Grown People, from Obstructions, Knots or Ulcers in the Lungs, attended with Coughs, Catarrhs, Hectic Fevers, Night-Sweats, Flushings, and Watings of the Flesh; likewise in those Eruptions of Infants call'd the Red-Gum, entirely rooting out and destroying the Acrimonious Humour and inward Heat of the Throat, which for want of timely Relief, kills multitudes of Infants.

It is so innocent, that it may be taken by a Child of a Day old, and is so far from laying the Foundation of a Train Evil, by stupefying the Senses, and only easing the pains, pausing the Stomach, &c. which are well known to attend all Preparations of Opistes, and which, by wouling Experience, has ruined multitudes of Infants, by locking up the Vessels those very Mischief they were given to expel, and which, in a little Time, break out with a double Force thereby at once ruining the Constitution of the Infant, if terminating in Death.

Sold at Dr. BATEMAN's Warehouse, in Bow Church-Lane London, at One Shilling the Bottle, containing about an Ounce and a half; sealed as in the Margin, with copious Directions and Instructions in every Case incident to Children; together with a brief Account of the Nature and Original Cause as well as Cure, of the Distempers common to Infants, according to the Opinion of the best Authors, A. Gent and M. dem.
